The Career Learning Center of the Black Hills has a variety of education, training and pre-employment offerings and services. Below is a brief description of these services. Please call our office for more information.

Adult Education at the Career Learning Center of the Black Hills (CLCBH): The CLCBH serves adult education students throughout Western South Dakota in the communities of Belle Fourche, Spearfish, Sturgis, Rapid City, and Custer. There are three primary areas of study for students enrolled:

GED Preparation: Serves most of our students ages 18 and older without a high school diploma with instruction offered during daytime and evening hours for preparation to take the GED exams.

Adult Basic Education: Serves individuals 18 and older with a high school diploma or GED who need academic review to prepare for enrollment into a university, technical college, apprenticeship or other post-high school education/training. Tutoring is also available.

English as a Second Language: Serves students 18 & over who are studying oral and written English skills.

Pre-Employment Services

- Resume and Cover Letter Development
- Interviewing Skill Practice

Testing Services: The Career Learning Center of the Black Hills (CLC) represents 10 National and International Test Centers providing hundreds of proctored assessments. Tests are administered regularly for professionals, job applicants, employers, government agencies and students. The CLC has met the comprehensive facility, technology and security requirements for all assessment providers represented at our facility. In the past 12 months, the CLC has provided over 2,000 exams!

The CLC strives to meet the electronic testing needs of the Black Hills community members. To register for a test, individuals will access the appropriate link to their exam which will identify if that test is offered in the Rapid City area. If it is, it will most likely be provided at the Career Learning Center. If a test is not offered in this area, we welcome the opportunity to research the possibility of providing the exam at our facility. Testing Centers represented at the CLC include:

- Certiport Performance Assessment Network—PAN

(CLC also provides I-9 Employment Verification through PAN)

- Pearson VUE
- ISO Quality Testing
- PSI
- Total Testing

Many of the computer training courses and the MOS tests are approved for funding through the South Dakota Department of Labor and Regulation and the Veteran's Affairs.

MOVIES: THE LITERATURE OF OUR TIMES

Instructor: Charlie Abourezk

Great films easily manipulate us into feeling certain emotions and adopting certain cultural or social values. Movies, like books, have multiple layers of meaning and symbolism, triggering our imagination in multiple ways. This class will teach how to 'read' movies at a deeper level to understand how they influence our feelings and values, and how certain characters, colors, camera angles, symbolism, and devices like 'forecasting' themes in the movie make that happen. Film theory will be discussed, and we'll watch some of our favorite films each class, analyzing and dissecting so you gain insight and enjoyment.

INTRODUCTION TO KITBAG

Instructor: Aiveen Martin

Originally developed in Scotland by International Futures Forum (IFF), Kitbag is a global toolkit that can be utilized by individuals, families, organizations and communities to build psychological capacity and resilience in these complex times. Come experience the resources in kitbag: mind-based practices encouraging self-care and self-help to develop connections to resilience that you may not be aware you have, and positively impact your daily life and connections. This is a safe space to discover how Kitbag can develop us as individuals, help families resolve tensions, improve learning environments, grow skills for listening and befriending in communities, and strengthen teamwork in organizations. It makes for kinder, more compassionate, connected people. Kitbag comes in various forms including an online app, and you'll become familiar with all the kitbag resources with an option to purchase a kitbag to suit your needs. This introductory course is suitable for individuals and professionals wanting to work with their inner strengths; is powerful with children/young people to help develop confidence, express emotion, develop empathy; and organizations to share and be listened to respectfully within a culture of trust, kindness and encouragement. NOTE: Handouts will be supplied and the option to purchase Kitbag supplies. No class on April 12th.

INTRODUCTION TO MINDFULNESS

Instructor: Aiveen Martin

What is Mindfulness? Mindfulness is simply being fully aware in the present moment. It's being in touch with what is going on, both inside ourselves through our feelings, thoughts and physical sensations, and outside ourselves through our connections with other people, nature and the environment. Most of us live busy, stressful lives, under pressure, and our minds are full of what needs to be done or continuously going over what has been. We rarely pause to appreciate the present moment. If not relieved, this constant 'busyness' can lead to various health problems. Both physical and mental health along with general well-being can be improved by a mindful practice and the qualities of mindfulness can be developed in our lives in the same way as learning a new skill. Come join Aiveen to get a clearer understanding, establish a regular practice at home, and a way of being that helps us tackle life's problems - physical, mental, social and emotional - for a better quality of life.

MEDITATION: IT'S NOT WHAT YOU THINK

Instructors: James Kando Green, and Members of Laughing Teabowl Sangha

People often say, "Oh, I can never meditate. My mind is a war zone." This is a common complaint of people who try this on their own. Zen meditation is the art of letting go of thoughts, of opinions, of projections, of who's right and who's wrong, of the eternal battle that is waged in our minds. It is the art of just being present in the body and quiet in the mind and seeing what comes from that. This class will deal with the techniques of mindfulness, the how to's of meditation and the practice of mindfully drinking a cup of tea. From one moment of silence, the world opens up, or at least it can. We will also practice meditating together, an experience that makes quieting the mind easier for beginners. The teachers have been practicing letting go and quieting down for a very long time. We hope you will join us as a world of deep presence is awaiting you. NOTE: Class is live virtually via Zoom and students will be sent the link to join the class at their email address they provide at registration.

WINE: THE EXPRESSIVENESS OF PINOT NOIR

Instructor: Eric Gardner

More so than any other grape, pinot noir tells the story of the place it was grown through its complexity of textures and flavors. It's no wonder a winemaker's ultimate goal, as an artist, is to make the perfect pinot! Even today with all the history to learn from, few can achieve greatness with this very finicky yet passionate grape! In this class, students will try pinot from all over the U.S. and world. From the bold and fruit-forward to the earthy and elegant, no two pinots are alike. Students get to decide which style they like best. A light charcuterie will be provided, but students may want to eat a late lunch before class as you'll be tasting several wines. NOTE: Tuition includes all supply fees! LAKOTA CULTURAL HISTORY II: LIVE IN HARMONY UPON MOTHER/GRANDMOTHER EARTH

Instructor: Daryl No Heart

Your instructor has noticed that an Indigenous person (man or woman) from a foreign country that's being interviewed, whether it's on TV, radio or an article in a magazine/newspaper, always seem to address Earth as "mother Earth" or "Earth, our mother". Why is that so rare in our country? Perhaps because the connection and understanding simply needs to be cultivated. As Indigenous youngsters, we were taught by example that Mother/Grandmother Earth is to be respected. Therefore, this class is a continuation of showing the 'life way' of Indigenous peoples throughout our world. See how for centuries, they've lived their lives to the fullest. To witness, no matter how old their way of life is; their unique & sacred beliefs have remained the same as they celebrate the gifts of Grandmother Earth. Please come to continue learning and cultivating the connection you have and can

feel with the land. NOTE: Bring a friend... tuition is for two!

LET'S BUILD A CIGAR BOX GUITAR

Instructor: Bobby Joe Holman

The cigar box guitar is a simple instrument that dates back to the mid-1800's! Consisting of a few strings and an empty cigar box, many historical versions were completed with a neck made from the end of a broomstick! Contemporary cigar box guitars are still cost-efficient and easy projects that you create, and this class takes you step-by-step through the process of assembling the kit, tuning the guitar, holding and strumming, playing chords with a slide and one finger, playing single notes on the fretboard, changing a string, and learning to play 3 songs. NOTE: Students must purchase and/or bring to class a screwdriver, pliers, an adjustable clamp, and their own "Tin Pan Alley" 3-string Paint Can Resonator Guitar Kit. You can purchase the kit from C.B. Gitty Crafter Supply Company at www.cbitty.com. Once you've registered for this class, Bobby Joe will issue you a 10% discount code from the C.B. Gitty Crafter Supply Company site to your email address to use for purchasing the kit. If you're interested in private lessons via Zoom, please contact Bobby Joe at 385-867-1988.

LEARN TO PLAY YOUR CIGAR BOX GUITAR

Instructor: Bobby Joe Holman

The cigar box guitar is a simple chordophone that uses an empty cigar box as a resonator. The earliest had 1 or 2 strings; modern models typically have 3 or more strings. Generally, the strings are connected to the end of a broomstick or a 1 x 3-inch wood slate to the cigar box resonator. In this class, you'll learn how to tune your CBG, hold and strum it, play chords with a slide and one finger, play single notes on the fretboard, change a string, and play 3 songs! If you need to purchase a CBG or accessories, Bobby Joe will issue you a 10% discount code to your email for the C.B. Gitty Crafter Supply Company at www.cbitty.com after you register for class. INTRO TO DIATONIC HARMONICA

Instructor: Bobby Joe Holman

Just for a moment, close your eyes and picture yourself playing a sweet melodic sound, then changing the sound into a myriad of gutsy, soulful riffs, and slowly easing out to new imaginative heights...welcome to the amazing diatonic harmonica! Your instructor will teach you how to hold the diatonic harmonica, play a chord, a single note, a hand 'vibrato', bend a note, play a 'trill', a 'train whistle', and a 'country', a 'blues', and a 'folk' song. NOTE: Students must purchase and/or bring to class a 10-hole diatonic harmonica in the key of "C", and the Hal Leonard Complete Harmonica Method Diatonic Harmonica book (HL00841285) by Bobby Joe Holman. If you're interested in private lessons via Zoom, please contact Bobby Joe at 385-867-1988.

INTRO TO CHROMATIC HARMONICA

Instructor: Bobby Joe Holman

From the soothing melody of "Isn't She Lovely" by Stevie Wonder to the wailings of Spaghetti Western themes from Ennio Morricone, the sound of the chromatic harmonica permeates our musical culture. Unlike diatonic harmonicas (which are limited to the notes of only one scale), a chromatic harmonica can play all twelve tones in the chromatic scale thanks to a button-activated sliding bar. Start your chromatic journey with beginning techniques reinforced through weekly exercises and simply playing for fun. Students will learn how to hold the chromatic harmonica, play a single note, play and read the key of "C" chromatic scale, read chromatic harmonica legend, play modes on, and play the "Amazing Grace" song. NOTE: Please purchase or bring to class a 2 1/2 - 4 octave chromatic harmonica with a slide, and the Hal Leonard Complete Harmonica Method Chromatic Harmonica book (HL00841286) by Bobby Joe Holman. If you're interested in private lessons via Zoom, please contact Bobby Joe at 385-867-1988.

ELECTROMAGNETIC RADIATION: HOW TO CREATE A HEALTHY HOME

Instructor: Cindy Daw

Electromagnetic radiation? Did you know that indoor air pollution is 1 of the top 4 environmental health risks identified by the EPA? Millions of children and adults have experienced elevated blood levels of contaminants linked to a vast spectrum of issues from exposure to indoor pollutants. These pollutants are found in home wiring, wireless technology and improper lighting. Symptoms include insomnia, fatigue, irritability, headaches, hormone disruption, and more... Your home should be a place for rejuvenation and rest, and this is for those wanting a healthier home, or for new builds or renovations. NOTE: Learn how to use an EMF meter and bring any device you'd like to have measured for EMF emissions: cell phones, wireless baby monitors, gaming components, tablets, routers, etc.

A COURSE IN BONSAI

Instructor: Andy Smith

Come learn some of the history, aesthetics and techniques behind the amazing art of bonsai - the pastime of growing tiny, often ancient, trees in ornamental pots. Several bonsai trees over 100 years old will be available for examination and discussion! Get introduced to the art of bonsai, plus work hands-on with your own small Ponderosa Pine tree that has been potted for a year or two, giving it the initial shaping for its bonsai journey at your home. Your instructor (a Yamadori Master, owner of Golden Arrow Bonsai, longtime Director of American Bonsai Society) has been growing/collecting ancient bonsai and teaching workshops/lectures across the country for 25 years! NOTE: Students must bring a pair of electricians wire cutters (nothing fancy) and sharp scissors. Additional \$25 supply fee paid to instructor at class, with the option of spending more for a larger tree of your own if you desire. Check out www.goldenarrowbonsai.com.
